

Environmental Policy

Terrex Seismic is a Seismic Acquisition Services Contractor providing services to the Oil, Gas, Mineral and Government Research Industries.

Our vision is to be one of the world's most safest, operationally efficient, technologically advanced and innovative onshore Seismic Acquisition and Survey service providers.

Our aim is to provide an environmentally effective workplace while minimising the environmental impacts of our activities and satisfying our customers' expectations.

We at Terrex Seismic are committed to:

- Conducting all operations in such a manner as to minimise their impact on the environment.
- Promoting the protection of all Natural and Cultural environments that can be affected by our activities.
- Seeking to continuously improve in the efficient use of natural resources and energy through recycling and waste management.
- Regularly review and improve our process to minimise negative significant impacts to the environment and prevent pollution.
- Establishing measurable objectives and targets for improving our environmental performance.
- Working with our customers, suppliers and employees to seek continual improvement of our activities through consultation and communication.
- Complying with legislation and industry codes of practice wherever we conduct business.

To ensure this commitment we have implemented an Integrated Management System, which meets the requirements of:

- **ISO 14001 Environmental Management Systems.**

This policy is basic to all Terrex Seismic operations and adherence is the prime responsibility of management, every employee and all contractors / sub-contractors.

This policy is displayed in Terrex Seismic facilities where the public has access, and an extract is available on the company website.

A handwritten signature in black ink, appearing to read 'Chris Kneipp', is positioned above the printed name.
