

# Health, Safety and Quality Policy

Terrex Seismic is a Seismic Acquisition Services Contractor providing services to the Oil, Gas, Mineral and Government Research Industries.

Our vision is to be one of the world's most safest, operationally efficient, technologically advanced and innovative onshore Seismic Acquisition and Survey service providers.

Our aim is to provide a healthy and safe working conditions for the prevention of work-related illnesses and injuries.

We at Terrex Seismic are committed to:

- Providing a healthy and safe workplace for our employees, contractors and the general public.
- Respecting all forms of indigenous and non-indigenous heritage and maintaining cultural heritage values.
- Encouraging a positive safety culture empowering all employees and contractors to participate in hazard identification and continual improvement aimed at the elimination or reduction of risks.
- Ensure that all employees, at every level of the organisation, understand and commit to the implementation of this policy.
- Establishing measurable objectives and targets for improving our safety and health performance.
- Working with our customers, suppliers and employees to seek continual improvement of our activities through consultation and communication.
- Achieving customer satisfaction by the use of quality procedures that exceed client expectations.
- Complying with legislation and industry codes of practice wherever we conduct business.

To ensure this commitment we have implemented an Integrated Management System, which meets the requirements of:

- **ISO 45001 Occupational Health and Safety Management System**

This policy is basic to all Terrex Seismic operations and adherence is the prime responsibility of management, every employee and all contractors / sub-contractors.

A handwritten signature in black ink, appearing to read 'Chris Kneipp', is positioned above the printed name.

Chris Kneipp  
Chief Executive Officer
